**TESTIMONY
HB 3590
House Committee on Environmental Regulation
April 29, 2009**

The League of Women Voters of Texas SUPPORTS HB 3590 by Representative Lon Burnam.

This bill requires the TCEQ to develop and maintain an inventory of all fugitive air contaminants from oil and gas industry sources.

Fugitive emissions have been shown to be a significant source of air contaminants. It has also been shown that capturing fugitive emissions adds to the efficiency of many facilities.

We encourage your support of this bill.

Thank you.
